Commodities Corridor EMALL-RELATED EC/EDI ISSUES

- ◆ Supply Process Policy/Procedures; e.g.
  - ◆ Receipting/"Closed Loop" Requirements
    - Do items ordered from Commercial Catalog Vendors via EMALL require receipt by orderer?
    - Are such sales "issues from DoD wholesale stocks?"
  - ◆ Capture of Logistics Response Time Data
    - Is LMARS data required to be captured by the system for EMALL orders?
    - Would the capture of LMARS data be cost effective given its volume relative to standard requisitions/orders?
